Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	mani manideep	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	1 week, 2 days, 4 hours		
Time Spent:	Not Specified		
Original estimate:	1 week, 2 days, 4 hours		
Environment:	There is no such hardware and software problem in the user system.		

Description

The student (or) the user is not able to access the upload assignment in the LMS(learning management system) section in the ums navigation. After clicking on the upload assignment it the system is able to open the file system to upload the file but the website is not able to upload the file which the user is selected the file to upload.

Steps to reproduce:

- 1 .Open the and login to the ums.
- 2 .Click on the ums navigation and select the LMS module.
3. Click on the assignments and select the assignment upload.
4. Select the course and click on the upload button.
5. Select the the file to upload.
6. Click on the submit button.

Expected result: The user (or) student can able to access the file system but not able to upload the file.

Actual result: The user (or) student can able to access the file system and upload the file successfully.
